RELEVANCE OF EACH DOCUMENT

A translation of a portion of a Chinese Office Action that issued February 25, 2005 with respect to a counterpart Chinese patent application is provided below.

“D1 discloses a production system comprising a plurality of assembling device (2, 3, 4, 5) arranged in series for performing a sequential assembling of work unit applied to the system, said assembling device being respectively equipped with light towers (20, 21, 24, 25) each of which visually indicates assembling states of the corresponding assembling apparatus by energizing or de-energizing different colored lamps. Said production system comprises a lamp control signal monitor for receiving lamp control information used to energize or de-energize said colored lamps, and scoring time data for controlling. (See Figs. 1 and 2 and the corresponding description of D1.)

D1 (see Fig. 2) discloses that the time duration to be displayed on the display is selected by a switch. This technical feature has been disclosed by D1 (see Fig.2 of D1).”

Applicant’s statements regarding the Chinese Office Action are based on a partial translation that Applicant’s representative obtained. These statements should in no way be considered as an agreement by Applicant with, or an admission of, what is asserted in the Chinese Office Action.
